

Aviate App - User Manual

App Download Link:

<https://expo.dev/artifacts/eas/4uEQdzphj6Xfc4eqpKmFxK.apk>

1. Install the App

- Open the app download link on your Android device.
- Download and install the APK file.
- If prompted, allow installation from unknown sources.

2. Login

- Open the Aviate app after installation.
- Enter the Email and Password from this welcome email.
- Tap Login to access your account.

3. First Login

- Sign in using the temporary password provided.
- Change your password immediately after first login.

4. Basic Use

- View your assigned delivery jobs on the home screen.
- Tap a job to see the list of stops.
- Mark each stop as completed after delivery.
- Job closes automatically when all stops are done.

5. Troubleshooting

- Check your internet connection if app does not load.
- Verify your login credentials are correct.
- Contact your administrator if access is denied.
